Subject as set out below the Issuer accepts responsibility for the information contained in this Series Memorandum other than the information in the sections (i) *Information relating to the Arranger, Custodian, Placing Agent, Calculation Agent and Sale Agent*, and (ii) *Description of the Margin Account* that relates to the Margin Account Provider. To the best of the knowledge and belief of the Issuer (which has taken all reasonable care to ensure that such is the case), such information for which it accepts responsibility contained in this Series Memorandum is in accordance with the facts and does not omit anything likely to affect the import of such information. The Issuer confirms that the information in the sections referred to in (i) to (ii) above has been accurately reproduced from information provided by (a) the Arranger, Custodian, Placing Agent, Calculation Agent and Sale Agent, and (b) the Margin Account Provider, respectively, and as far as the Issuer is able to ascertain, no facts have been omitted which would render the reproduced information inaccurate or misleading.

Neither the delivery of this Series Memorandum nor any sale made in connection herewith shall, under any circumstances, create any implication that there has been no change in the affairs of the Issuer since the date hereof.

Full information on the Issuer and the offer of the Notes is only available on the basis of the combination of the provisions set out within this Series Memorandum and the Programme Memorandum.

The Notes, which are described in this Series Memorandum, have not been, and will not be, registered under the United States Securities Act of 1933, as amended (the “Securities Act”) or the securities laws of any of the States of the United States. Accordingly, the Notes are being offered and sold only in bearer form pursuant to the exemption afforded by Regulation S promulgated under the Securities Act solely outside of the United States and solely to non-U.S. persons and in specific reliance upon the representations by each Noteholder that (1) at the time of the offer and sale of the Notes to Noteholder, the Noteholder was not a U.S. Person as defined in Regulation S, and (2) at the time of the offer and sale of the Notes to Noteholder and, as of the date of the execution and delivery of the purchasing or subscription agreement by the Noteholder, the Noteholder was outside of the United States. The Notes may not be offered or sold in the United States or to U.S. Persons (as defined in Regulation S) unless the securities are registered under the Securities Act, or an exemption from the registration requirements of the Securities Act is available. The Notes are subject to certain United States tax law requirements.

The Programme Memorandum is incorporated in, and shall be taken to form part of this Series Memorandum. This Series Memorandum must be read and construed in conjunction with the Programme Memorandum and shall be deemed to modify and supersede the contents of such document to the extent that a statement contained herein is inconsistent with such contents.

Risk factors

General

The purchase of the Notes involves substantial risks. Each prospective purchaser of the Notes should be familiar with instruments having characteristics similar to the Notes and should fully understand the terms of the Notes and the nature and extent of its exposure to risk of loss.

Before making an investment decision prospective purchasers of the Notes should conduct such independent investigation and analysis regarding the Issuer, the Charged Assets, the Notes and all other relevant persons and such market and economic factors as they deem appropriate to evaluate the merits and risks of an investment in the Notes. However, as part of such independent investigation and analysis, prospective purchasers of Notes should consider carefully all the information set forth in this Series Memorandum and in the Programme Memorandum and the considerations set out below.

Investment in the Notes is only suitable for investors who have the knowledge and experience in financial and business matters necessary to enable them to evaluate the information contained in this Series Memorandum and in the Programme Memorandum and the merits and risks of an investment in the Notes in the context of the investor's own financial circumstances and investment objectives.

Investment in the Notes (or a participation therein) is only suitable for investors who:

- (1) are capable of bearing the economic risk of an investment in the Notes (or a participation therein) for a period up to and until the redemption of the Notes;
- (2) are acquiring an interest in the Notes (or a participation therein) for their own account for investment, not with a view to resale, distribution or other disposition of such interest (subject to any applicable law requiring that the disposition of the investor's property be within its control); and
- (3) recognise that it may not be possible to make any transfer of the Notes (or a participation therein) for a substantial period of time, if at all.

Each of the Issuer and the Arranger may, in its discretion, disregard interest shown by a prospective investor even though that investor satisfies the foregoing suitability standards.

Each prospective investor should ensure that it fully understands the nature of the transaction into which it is entering and the nature and extent of its exposure to the risk of loss of all or a substantial part of its investment. Attention is drawn, in particular, to the sections of the Programme Memorandum entitled "Conditions of the Notes - Security" and "Conditions of the Notes - Enforcement and Limited Recourse" and the sections in this Series Memorandum entitled "Information relating to the Charged Assets".

Risks relating to the Issuer and Transaction Parties

Special purpose company

The Issuer is a special purpose company and has been established for the purpose of issuing multiple Series of secured Notes under the Programme. The Issuer has issued share capital only in the amount of EUR 38,100. Should any unforeseen expenses or liabilities (which have not been provided for) arise, the Issuer may be unable to meet them, leading to an Event of Default under the Notes.

There is no certainty that Noteholders will recover any amounts payable under the Notes. Due to the limited recourse nature of the Notes (see “*Limited recourse*” below), claims in respect of the Notes are limited to the proceeds of enforcement of the Mortgaged Property subject to the prior security interests of the Margin Account Provider and after the deduction of any applicable expenses. In addition, if a claim is brought against the Issuer (whether under statute, common law or otherwise) which is not subject to such contractual limited recourse provisions, the only assets available to meet such claim would be the proceeds of the issuance of the Issuer’s ordinary shares and any transaction fees (see “*Fees*” below), to the extent any remain as at the date of such claim and are available to meet such claim. The only other assets of the Issuer will be the assets on which each Series is secured, which will be subject to the prior security interests of the relevant Noteholders and any other secured parties under that Series.

Limited recourse

The Notes will be limited recourse obligations of the Issuer secured on the Mortgaged Property (including the Charged Assets) and are not or will not (as the case may be) be obligations or responsibilities of, or guaranteed by, any other person or entity. **For the avoidance of doubt, none of the Trustee, the Arranger, any other Agent appointed by the Issuer or any other person has any obligation to any Noteholder for payment of any amount by the Issuer in respect of the Notes. There is no person that guarantees to Noteholders that they will recover any amounts payable under the Notes.**

The ability of the Issuer to meet its obligations in respect of the Notes will be dependent on the receipt by the Issuer of moneys due to it under the Mortgaged Property (including the Charged Assets comprised therein). The Noteholders shall have no recourse to the Issuer beyond the moneys derived by or on behalf of the Issuer in respect of the Mortgaged Property. To the extent that investment by the Issuer in the Charged Assets held by the Issuer results in such investment being less than the obligations of the Issuer under the Notes, the Issuer will have insufficient funds available to meet its obligations in respect of the Notes. In such event, any shortfall would be borne by the Noteholders in accordance with the priorities specified in the Conditions. See “*Nature of the investment*” below.

For the avoidance of doubt, Notes are not, and do not represent or convey any interest in the Charged Assets nor do they confer on the Noteholder any right (whether in respect of voting, dividend or other distribution) which a holder of any Charged Assets may have had. The Issuer is not an agent of the Noteholder for any purpose.

Liability for the obligations of other Series

The Issuer has undertaken not to incur any obligations with respect to any other Series of Notes unless recourse in respect of such obligations is limited to the proceeds of enforcement of the Security over the assets of the Issuer on which such obligations are secured (which assets shall exclude the Mortgaged Property securing any other Series of Notes). Nevertheless, to the extent there are any

creditors with respect to a Series of Notes whose recourse is not so limited Noteholders may be exposed to risks incurred for the account of other Series.

Risks relating to the Notes

Nature of the investment

These Notes are not principal protected and are a high-risk investment in the form of a debt instrument. The Noteholders are neither assured of repayment of the capital invested nor are they assured of payment of a stated rate of interest. The Notes give Noteholders exposure to certain securities that the Issuer has invested in. See "Information relating to the Charged Assets" below.

Any payments to be made on the Notes depend on the value of the Charged Assets held by the Issuer, which is the value of the amounts received by the Issuer in respect of the Charged Assets. Should the Charged Assets decrease in value, Noteholders will incur a partial or total loss of their investment.

In certain circumstances, described in the Conditions of the Notes, the Notes will be redeemed early pursuant to a Mandatory Redemption Event, an Additional Mandatory Redemption Event or a redemption event pursuant to Condition 2(c)(A)(1) and Noteholders shall be entitled to receive only such amount as is available following the sale or redemption of the Charged Assets, as the case may be, subject to the provisions of the Notes described under "*Limited recourse*" above.

In general, redemption payments to be made on the Notes are calculated with reference to the value of the Charged Assets. However, if and to the extent that the amount payable by the Issuer in accordance with the Notes to the Noteholders is greater than the amount received by the Issuer in respect of the redemption of the Charged Assets, the Noteholder shall be entitled to receive only its *pro rata* share of such amount as is received by the Issuer under the Charged Assets after deduction of any applicable costs and expenses.

Fees

In addition to the fees due to the Trustee and any Agents, and any other transaction related fees incurred by the Issuer in respect of the issuance of the Notes, the amounts payable under the Notes are based on the performance of the Charged Assets after deduction of certain fees, which is further described in Special Condition (XI) of the Notes. The fees will be applied in calculating the value of the Portfolio and therefore will result in a reduction in the value of the Notes.

In connection with the offer and sale of the Notes, the Arranger or any of its associated companies may, directly or indirectly, pay fees in varying amounts to third parties or, as the case may be, receive fees (including but not limited to distribution fees and retrocessions) in varying amounts, including, from third parties (which may include any Transaction Participants as defined below). Each Noteholder acknowledges that the Arranger or any of its associated companies may retain all or part of such fees.

Optional Redemption by the Issuer

Investors in the Notes should be aware that the Issuer has the option to redeem any amount of the Notes at their Optional Redemption Amount on the Optional Redemption Payment Date, by giving not less than ten (10) Business Days' prior notice to the Noteholders, the Trustee and the Principal Paying Agent. Such notice may be revoked by the Issuer at any time prior to the Optional Redemption Date.

Optional Redemption by the Arranger

Investors in the Notes should further be aware that the Arranger has the option, without limitation, at any time to redeem any amount of the Notes at their Optional Redemption Amount on the Optional Redemption Payment Date. The Arranger would redeem Notes if it is the holder of such Notes, pursuant to the Conditions of the Notes. While the Arranger may actively become involved in the secondary market in the Notes (if any), such participation would be at the Arranger's sole discretion and the Arranger shall not have any obligation to make a secondary market. See "*Liquidity*" below.

Arranger default

The Notes will be redeemed if the Arranger is dissolved or becomes unable to perform its obligations in relation to the Notes.

Payments

Payments under the Notes will only be made after receipt of the Sale Proceeds by the Issuer. The date of payment of the redemption amount under the Notes is therefore not fixed. Payment of redemption amounts under the Notes depends on the liquidation of the Charged Assets. It may take a considerable period of time to redeem the Charged Assets, in particular in the case of a redemption pursuant to Early Redemption. Noteholders may only receive payment of the relevant redemption amount under the Notes significantly later than the specified redemption date of the Notes.

Liquidity

No secondary market for the Notes currently exists. Prospective purchasers of the Notes should therefore recognise that, other than by the exercise of any rights of early redemption by the Noteholders arising on each anniversary of the Issue Date, they may not be able to liquidate their investment in the Notes. Investment in the Notes is therefore only suitable for investors who are capable of bearing the economic risk of an investment in the Notes for a full year and are not acquiring the Notes with a view to a potential resale, distribution or other disposition at some future date.

Notwithstanding the previous paragraph, the Arranger may provide a secondary market with a monthly dealing frequency and monthly purchases and sales by investors. The Arranger will not provide a secondary market should the Calculation Agent be unable to calculate the Net Asset Value of the Portfolio due to the illiquidity or suspension of trading of any of the Securities comprising the Portfolio. The Arranger does not have and will not assume any liability, whether legal or otherwise, *vis-à-vis* the Noteholders to provide a market for the Notes or with regard to the level of the applicable prices nor how they are determined. To the extent that the Arranger would purchase Notes in a secondary market sale, the Arranger would impose a USD 1000 fee to cover its administration expenses.

Market and legal risk

The Notes will constitute secured, limited recourse obligations of the Issuer, recourse in respect of which will, in effect, be limited to the proceeds of the Mortgaged Property (which principally comprises the Charged Assets) relating to the Notes and no other assets of the Issuer will be available to satisfy claims of Noteholders. The Issuer's obligations to the Noteholders are solely funded by, and primarily secured on, the Charged Assets. Therefore, to the extent that the value of the Charged Assets falls, payment under the Charged Assets is not made, the Charged Assets cannot be sold or if the relevant security arrangements would not be enforceable, a loss of principal under the Notes will result. Noteholders therefore assume the market and legal risk of the Charged Assets.

None of the Transaction Participants (as defined below) nor any affiliate of any of them or other person on their behalf has made any investigation of, or makes any representation or warranty, express or implied, as to the standing or suitability of or the financial or other condition of the Charged Assets

None of the Issuer, the Arranger, the Trustee, the Principal Paying Agent, the Custodian, the Calculation Agent, the Sale Agent or any other Agent (together, the “**Transaction Participants**”) nor any affiliate of any of them (or any person on their behalf) assume any responsibility vis-à-vis the Noteholders for the economic success or lack of success of an investment in the Notes, or the performance, the value or terms of the Charged Assets. No Transaction Participant will have any responsibility or duty to make any such investigations, to keep any such matters under review, to provide the Noteholders, or prospective purchasers of the Notes, with any information in relation to such matters or to advise as to the attendant risks.

Independent review and advice

Each prospective purchaser of Notes must determine, based on its own independent review and such legal, financial and tax advice as it deems appropriate under the circumstances, that its acquisition of the Notes (i) is fully consistent with its financial needs, objectives and condition, (ii) complies and is fully consistent with all investment policies, guidelines, authorisations and restrictions (including as to its capacity) applicable to it, (iii) has been duly approved in accordance with all applicable laws and procedures and (iv) is a fit, proper and suitable investment for it, undertaken for a proper purpose.

Legality of purchase

None of the Transaction Participants or any affiliate of any of them or other person on their behalf has or assumes responsibility for the lawfulness of the acquisition of the Notes by a prospective purchaser of the Notes, whether under the laws of the jurisdiction of its incorporation or the jurisdiction in which it operates (if different), or for compliance by that prospective purchaser with any law, regulation or regulatory policy applicable to it.

No reliance

The Transaction Participants and all affiliates of any of them disclaim any responsibility to advise purchasers of the Notes of the risks and investment considerations associated with the purchase of the Notes as they may exist at the date hereof or from time to time hereafter.

No restrictions on activities

Any of the Transaction Participants and any affiliate of any of them or other person on their behalf may have existing or future business relationships (including depository, lending, advisory or any other kind of commercial or investment banking activities or other business) with any of the other Transaction Participants and any affiliate of any of them or other person on their behalf and may purchase, sell or otherwise deal in any assets or obligations of, or relating to, any such party. Any of the Transaction Participants and any affiliate of any of them or other person on their behalf may act with respect to any such business, assets or obligations without regard to any possible consequences for the Issuer, the Notes or any Noteholder (or the impact of any such dealing on the interests of any Noteholder) or otherwise.

Provision of information

Any of the Transaction Participants or any affiliate of any of them or any other person acting on their behalf may at the date hereof or at any time hereafter be in possession of information in relation to the other Transaction Participants or any affiliate of any of them or any other person acting on their behalf or on behalf of the Charged Assets (which may or may not be publicly available or confidential). None

of such persons shall be under any obligation to make any such information available to Noteholders or any other party other than as provided in the Conditions of the Notes.

Taxation

Each Noteholder will assume and be solely responsible for any and all taxes of any jurisdiction or governmental or regulatory authority, including, without limitation, any state or local taxes or other like assessment or charges that may be applicable to any payment to it in respect of the Notes. Neither the Issuer nor any other person will pay any additional amounts to the Noteholders to reimburse them for any tax, assessment or charge required to be withheld or deducted from payments in respect of the Notes by the Issuer or by the Principal Paying Agent (or any other Paying Agent), although such requirement will give rise to an obligation to redeem the Notes early in the circumstances described in Condition 2 as amended by Special Condition (IV) of the Conditions of the Notes set out below.

Legal opinions

No legal opinions will be obtained with respect to any applicable laws, including the the laws governing the Charged Assets or as to the validity, enforceability or binding nature of the Charged Assets.

Conflict of interests

Any of the Transaction Participants or any affiliate of any of them or any other person acting on their behalf may from time to time, as principal or agent, have positions in, or may buy or sell, or make a market in any securities (including shares in a Transaction Participant), currencies, financial instruments or other assets owned by a Transaction Participant. Any trading and / or hedging activities of Transaction Participants or any affiliate of any of them or any other person acting on their behalf related to this transaction may have an impact on the price of the underlying assets. It should also be noted that GWM Group, Inc. acts as both the arranger of the issue of the Notes and as custodian, calculation agent, placing agent and sale agent.

Clearing systems

The Notes will be represented by one or more Temporary Global Notes and Permanent Global Notes. Such Global Notes will be deposited with a common depositary for Euroclear and Clearstream, Luxembourg. Except in the circumstances described in the relevant Global Note, investors will not be entitled to receive definitive Notes. Euroclear and Clearstream, Luxembourg will maintain records of the beneficial interests in the Global Notes. While the Notes are represented by one or more Global Notes, investors will be able to trade their beneficial interests only through Euroclear and Clearstream, Luxembourg.

While the Notes are represented by one or more Global Notes the Issuer will discharge its payment obligations under the Notes by making payments to the common depositary for Euroclear and Clearstream, Luxembourg for distribution to their account holders. A holder of a beneficial interest in a Global Note must rely on the procedures of Euroclear and Clearstream, Luxembourg to receive payments under the Notes. The Issuer has no responsibility or liability for the records relating to, or payments made in respect of, beneficial interests in the Global Notes.

Holders of beneficial interests in the Global Notes will not have a direct right to vote in respect of the relevant Notes. Instead, such holders will be permitted to act only to the extent that they are enabled by Euroclear and Clearstream, Luxembourg to appoint appropriate proxies.

Risks relating to the Charged Assets

Margin Account

The Margin Account is to be used to invest in securities or other products on margin which involves the extension of credit to the Issuer from the Margin Account Provider. As a result, the Issuer's financial exposure could exceed the value of securities or other products in the Margin Account. Any such credit will accrue interest at the agreed rates.

The Margin Account Provider may, whenever they deem it desirable or for their protection, sell any or all securities or related contracts in the Margin Account, or buy any securities or related contracts relating thereto, in order to close out in whole or in part any obligations of the Issuer pursuant to the Margin Account Agreement. Therefore, Securities or other Related Rights that the Issuer may hold in the Margin Account may be sold or bought at sub-optimal prices or times that are ill-suited to such trades being executed, and the value of the Notes may be adversely affected.

In return for the Margin Account Provider agreeing to the extension or maintenance of credit in connection with the Margin Account, the Issuer has agreed that the securities in the Margin Account, together with all attendant rights of ownership, may be the subject of securities lending transactions, whether to the Margin Account Provider or by the Margin Account Provider to third parties. In connection with such loans, the Margin Account Provider may receive and retain certain benefits to which the Issuer will not be entitled.

Further, there is a risk that substitute payments that the Issuer may be entitled to as a result of such securities loans may not be afforded the same tax treatment as actual interest, dividends and / or other distributions, that the Issuer may have been entitled to but for such securities loans, and the Issuer may incur additional tax liability for substitute payments that it receives. The Issuer would not be entitled to any compensation in connection with securities lent from the Margin Account or for additional taxes they may be required to pay as a result of any tax treatment differential between substitute payments and actual interest, dividends, and / or other distributions.

The Charged Assets are held in the Margin Account, and are subject to (i) a lien retained by the Margin Account Provider; and (ii) the security interests created pursuant to the Margin Account Agreement over the assets held in the Margin Account, that supersede any security interests created by either the Trust Deed or the Charging Instrument. The Margin Account Provider takes such security interests as security for its fees, costs and expenses pursuant to the Margin Account Agreement, as well as all its reasonable costs and expenses incurred in the collection of any debit balance or unpaid deficiency in the Margin Account, including, but not limited to, attorneys' fees. Therefore, the value of the Notes will be reduced by such fees, costs, expenses and charges.

The Margin Account is provided to the Issuer by Interactive Brokers LLC (the "**Margin Account Provider**"). As the obligations of the Issuer to make payments under the Notes is contingent on the performance of the Portfolio held in the Margin Account, the interests of the Noteholders may be negatively affected by an insolvency or winding up of the Margin Account Provider, or should any administrative or regulatory sanctions be imposed on the Margin Account Provider. See further "*Description of the Margin Account*".

Risk Relating to the Charged Assets

Investment in the Securities

The Issuer intends to use the proceeds of the issuance of the Notes to invest within 30 days following the Issue Date, in Republic of Venezuela 13 5/8 08/15/18 ISIN: US922646AT10.

Summary of Principal Underlying Investment Risks

As with any investment, you could lose all or part of your investment in the Notes, and the Notes' performance could trail that of other investments. The Notes are subject to the principal risks noted below (either directly or through its investments in underlying securities), any of which may adversely affect the Notes' Net Asset Value, trading price, yield, total return and ability to meet its investment objective.

Asset Class Risk: Securities in an underlying index may underperform in comparison to the general securities markets or other asset classes.

Concentration Risk: The Issuer intends to use the proceeds to invest in Republic of Venezuela Bonds. To the extent a significant percentage of the assets relating to the Notes are invested in one security, such security may be more susceptible to a single adverse economic or regulatory occurrence and lead to greater fluctuations in the value of Notes than may have been the case when investing in a diversified pool of assets.

Credit Risk: The Notes are subject to the risk that the Republic of Venezuela may not honor their obligations or may have their debt downgraded by ratings agencies.

Energy Sector Risk: The value of Republic of Venezuela bonds may be negatively affected by the energy sector for many reasons, including, without limitation, changes in energy prices, government regulations, energy conservation efforts and potential civil liabilities.

Extension Risk: During periods of rising interest rates, certain obligations will be paid off substantially more slowly than originally anticipated and the value of those securities may fall sharply, resulting in a decline to the Notes' income and potentially in the value of the Notes' investments.

Geographic Risk: A natural or other disaster could occur in a geographic region in which the Notes invests, which could affect the economy or particular business operations of companies in the specific geographic region, causing an adverse impact on the Notes' investments in the affected region.

High Yield Securities Risk: Securities that are rated below investment grade (commonly referred to as "junk bonds," including those bonds rated lower than "BBB-" by Standard & Poor's Ratings Services and Fitch, Inc. ("Fitch") or "Baa3" by Moody's® Investors Service, Inc. ("Moody's")), or are unrated, may be deemed speculative and more volatile than higher-rated securities of similar maturity.

Income Risk: The Notes' income may decline due to a decline in inflation (known as "deflation") or due to changes in inflation expectations.

Interest Rate Risk: An increase in interest rates may cause the value of fixed-income securities held by the Notes to decline.

Issuer Risk: Note performance depends on the performance of Republic of Venezuelan bonds to which the Note has exposure. Changes in the financial condition or credit rating of the Republic of Venezuela may cause the value of the securities to decline.

Liquidity Risk: Liquidity risk exists when particular investments are difficult to purchase or sell. This can reduce the Notes' return because an Underlying Security may be unable to transact at advantageous times or prices.

Market Risk: The Notes could lose money over short periods due to short-term market movements and over longer periods during market downturns.

Market Trading Risk: The Notes faces numerous market trading risks, including the potential lack of an active market for Notes' bonds, losses from trading in secondary markets and periods of high volatility. ANY OF THESE FACTORS, AMONG OTHERS, MAY LEAD TO THE NOTE'S SHARES TRADING AT A PREMIUM OR DISCOUNT TO Net Asset Value.

Risk of Investing in Republic of Venezuelan Bonds: Investments in the Republic of Venezuela may be subject to a greater risk of loss than investments in more developed markets. Emerging markets may be more likely to experience inflation risk, political turmoil and rapid changes in economic conditions than more developed markets. Emerging markets often have less uniformity in accounting and reporting requirements, unreliable securities valuation and greater risk associated with custody of securities.

Securities Lending Risk: The Notes may engage in securities lending. Securities lending involves the risk that the Notes may lose money because the borrower of the Notes' loaned securities fails to return the securities in a timely manner or at all. The Notes could also lose money in the event of a decline in the value of the collateral provided for loaned securities or a decline in the value of any investments made with cash collateral. These events could also trigger adverse tax consequences for the Notes.

Security Risk: Republic of Venezuela has experienced security concerns. Incidents involving security may cause uncertainty in such markets and may adversely affect their economies and the Underlying Notes' investments.

Sovereign Obligations Risk: The Notes will invest in securities issued by and guaranteed by the Republic of Venezuela, which may be unable or unwilling to repay principal or interest when due. In times of economic uncertainty, the prices of these securities may be more volatile than those of corporate debt obligations or of other government debt obligations.

Structural Risk: The Republic of Venezuela may be subject to considerable degrees of economic, political and social instability.

Security for the Notes

As the Securities held in respect of the Notes are held in the Margin Account, which is held with the Margin Account Provider, the Issuer will grant security interests over the Margin Account pursuant to a New York law governed Supplemental Security Agreement entered into between the Issuer, the Trustee and the Custodian dated on or about the Issue Date. However, these security interests and the security interests created by the Trust Deed in favour of the Secured Parties (which includes the Noteholders) are subject to and subordinated to the lien and the security interests held by the Margin Account Provider in respect of Securities held in the Margin Account. See "*Description in relation to the security arrangements in respect of the Notes*" below.

Redemption and transfer of the Charged Assets

Realisation of the Charged Assets may in certain circumstances be deferred in accordance with their relevant terms. The period of deferral may be significant. Therefore in certain circumstances, including where the Security for the Notes (and any Further Notes) becomes enforceable, there may be a significant delay in payments under the Notes and / or it may be impossible to transfer the Charged Assets as a means of realising their value.

THE CONSIDERATIONS SET OUT ABOVE ARE NOT, AND ARE NOT INTENDED TO BE, A COMPREHENSIVE LIST OF ALL CONSIDERATIONS RELEVANT TO A DECISION TO PURCHASE OR HOLD ANY NOTES. THE ATTENTION OF INVESTORS IS ALSO DRAWN TO THE SECTIONS HEADED "RISK FACTORS" IN THE PROGRAMME MEMORANDUM.

The amount (the “**Optional Redemption Amount**”) payable in respect of any Notes that are so redeemed will be an amount in USD determined by the Calculation Agent equal to the Early Redemption Amount.

(IV) **Early Redemption Amount**

Condition 2(c)(B) shall apply to the Notes.

- (A) The Early Redemption Amount of the Notes (in respect of principal and interest (if applicable)) shall be determined in accordance with Condition 2(e)(2) read with this Special Condition (IV) as follows:

The applicable Early Redemption Amount payable in respect of each Note pursuant to Condition 2(b)(1) will be the *pro*

rata share of the Net Proceeds. If the Sale Agent in its sole discretion determines that the Charged Assets cannot be sold within three months of the Early Redemption Date, then the Sale Proceeds and the applicable Early Redemption Amount shall be deemed to be zero and the Notes shall be redeemed at zero; or

- (ii) If the Notes become due and repayable in accordance with Conditions 2(b)(2) or 2(c),

then the applicable Early Redemption Amount shall be determined as an amount equal to the Redemption Amount had the Early Redemption Date been the Final Maturity Payment Date.

The Early Redemption Amount shall be payable on the Early Redemption Payment Date and shall not exceed the Net Proceeds of the Charged Assets. In the event that such Early Redemption Amount is less than the Net Proceeds of the Charged Assets, Noteholders shall receive such lesser amount.

- (B) Subject as provided in Special Condition (VII), the Early Redemption Amount will be paid on the Early Redemption Payment Date. No interest or other amount shall accrue or be payable in respect of the Notes in respect of the period from and including the Early Redemption Date to and including the Early Redemption Payment Date.
- (C) The Early Redemption Payment Date may be significantly later than the Early Redemption Date, see “*Risk Factors – Payments*”.
- (D) For the avoidance of doubt, reference in Condition 4 and Condition 2(e) to the Early Redemption Amount payable pursuant to an Event of Default shall mean the amount payable on redemption of each Note upon its becoming due and payable as provided in Condition 4 being the lesser of (i) the outstanding principal amount of such Note and (ii) the amount available by applying the portion available to the Noteholders pursuant to Condition 3(d) of the Net Proceeds of the enforcement of the Security in accordance with Condition 3 *pari passu* and rateably between the Notes.

(V) **Calculations, determinations and notifications**

The NAV Report and the summary thereof will be an estimated valuation of the assets held in the Margin Account, and shall not be interpreted as an indication of expected redemption values of the Notes. The NAV Report and the summary thereof shall take account of any fees, expenses or charges that applies to the Notes, and is subject to amendments and / or corrections at any time without giving notice to any person.

Whenever any matter falls to be determined, considered or otherwise decided upon by the Calculation Agent or any other person (including where a matter is to be decided by reference to the Calculation Agent's or such other person's opinion), unless otherwise stated, that matter shall be determined, considered or otherwise decided upon by the Calculation Agent or such other person, as the case may be, in its sole and absolute discretion. The Calculation Agent

has agreed in the Constituting Instrument to comply with its obligations set out in these Conditions.

Each of the Issuer, the Principal Paying Agent and the Trustee shall be entitled to rely on any certification, notification, calculation or determination of the Calculation Agent given or copied to it as being true and accurate for all purposes and none of them shall be obliged to make any investigation or enquiry into any such certification, notification, calculation or determination or into the basis on which such certification, notification, calculation or determination was prepared, given or made.

The Calculation Agent is required to rely on any certification, notification, calculation, determination or announcement made by or on behalf of the Margin Account Provider in connection with the Margin Account and shall not be obliged to make any investigation or enquiry into, and shall incur no liability to any person for relying on, any such certification, notification, calculation, determination or announcement made by or on behalf of the Margin Account Provider.

(VI) **Further Notes**

Pursuant to Condition 16 as amended and supplemented by this Special Condition (VI), the Issuer shall be at liberty to issue Further Notes with the express intention that such Further Notes be consolidated and form a single series with the Notes (and with any subsequent Further Notes so issued) provided that:

- (A) the net proceeds of issue of such Further Notes shall be transferred to the Margin Account held with the Margin Account Provider, to be invested in Republic of Venezuela bonds, and such proceeds shall form part of the Portfolio on or about the same date as the date on which the Further Notes are issued (such Securities and the Related Rights applicable thereto being the Further Charged Assets);
- (B) each of the Further Notes that the Issuer may issue from time to time, together with the Notes, are secured collectively on the Issuer's right, title and interest in and to the Original Charged Assets and each of the Further Charged Assets such that the Security for the Notes and any Further Notes shall be the identical and all references to "*Charged Assets*" shall be to the Original Charged Assets and the Further Charged Assets from time to time;
- (C) the Conditions of each of the Further Notes are identical to the Conditions of the Notes (save in respect of their date of issue);
- (D) each issue of Further Notes will be constituted and secured by a supplement to the Constituting Instrument in the form substantially set out in the Constituting Instrument (or in such other form as is legally effective to constitute and secure the Further Notes) (the "**Further Constituting Instrument**") and so that upon the execution by the Issuer of the Further Constituting Instrument, all references to the Constituting Instrument shall be construed as being to such document as supplemented from time to time; and
- (E) the security interests granted by the Issuer in such Further Constituting Instrument and the Charging Instrument are granted to the Trustee for all the Noteholders of the consolidated Series on a *pari passu* basis.

(VII) **Collateral Default and Arranger Default**

- (A) If the Calculation Agent determines in its sole discretion that a Collateral Default or a Charged Assets Default has occurred then it shall give notice as soon as practicable thereafter to the Issuer, the Trustee, the Principal Paying Agent and the Noteholders (in accordance with Condition 7) of the occurrence of such event. The Issuer shall redeem the Notes in full by payment to each Noteholder of a *pro rata* amount of the Net Proceeds of the Charged Assets five (5) Business Days following the day on which the Issuer receives the Sale Proceeds.
- (B) If the Issuer (in its sole discretion) determines that an Arranger Default has occurred then it shall give notice as soon as practicable thereafter to the Trustee, the Principal Paying Agent and the Noteholders (in accordance with Condition 7) of the occurrence of such event. The Issuer shall redeem the Notes in full by payment to each Noteholder of a *pro rata* amount of the Net Proceeds of the Charged Assets five (10) Business Days following the day on which the Issuer receives the Sale Proceeds.

(VIII) **Purchase**

Condition 2(g) shall apply subject as amended by this Special Condition (VIII). In determining what proportion of Charged Assets corresponds to the proportion of Notes to be purchased, the Issuer shall be entitled to rely on advice given to it by the Calculation Agent. The Issuer has absolute discretion to designate which Securities (or combination of Securities) or other assets held in the Margin Account to select in order to fulfil its obligations pursuant to Condition 2(g) as hereby amended.

(IX) **The Trustee**

The Trustee shall not be responsible for, or obliged to monitor or verify or investigate:

- (A) the performance, operation or calculation of the Portfolio or other element of the calculation thereof but shall be entitled to rely absolutely on any calculation thereof by the Calculation Agent;
- (B) the performance, operations or financial condition of the Margin Account Provider or the terms of the Charged Assets or the calculation of amounts payable in respect thereof;
- (C) the performance by the Margin Account Provider, or the Issuer of any of their respective obligations under the Margin Account Agreement or any other agreement relating to, or in connection with, the Portfolio or the Margin Account and shall be entitled to assume that each of them is in compliance with the terms thereof unless and until expressly notified to the contrary in writing by the Issuer or the Calculation Agent;
- (D) whether or not any Additional Mandatory Redemption Event or other event referred to in Special Condition (IV), any Event of Default or any Collateral Default and shall be entitled to assume that no such event has occurred unless and until expressly notified to the contrary in writing by the Issuer or the Calculation Agent; or
- (E) save to the extent caused by its own negligence or wilful default the Trustee shall not be responsible or liable for any failure to sell, realise or redeem the Charged Assets

and the Mortgaged Property or any delay in doing so nor for any loss suffered or incurred by any person as a result of the Net Proceeds, the Sale Proceeds or any other proceeds of sale, realisation or redemption of the Charged Assets or the Mortgaged Property being insufficient to discharge any Redemption Amount, Early Redemption Amount or Optional Redemption Amount in full.

(X) **Sale Agent**

The Sale Agent shall, on behalf of the Issuer, sell or procure the sale or other means of realisation of the Charged Assets and shall be entitled to deduct any costs, expenses, taxes and duties incurred in connection with any disposal, realisation or transfer of such Charged Assets.

The Sale Agent may sell or procure the sale or other means of realisation of the Charged Assets in such manner and to and / or involving such person as it thinks fit and shall be entitled to sell and procure the sale or other means of realisation of the Charged Assets at such price in its sole discretion. The Sale Agent shall not be responsible or liable for any failure to sell or realise the Charged Assets or any delay in doing so nor for any loss suffered or incurred by any person as a result of their sale or other means of realisation.

(XI) **Fees**

In addition to the fees due to the Trustee and any Agents, and any other transaction related fees incurred by the Issuer in respect of the issuance of the Notes, as determined by the Calculation Agent, the Issuer has agreed to pay certain fees to the Margin Account Provider, the Arranger and the Custodian.

The following fees shall be determined by the Calculation Agent as at the date expected to be two Business Days immediately prior to the following: (i) each NAV Report Date, (ii) the Final Maturity Payment Date, and (iii) any Optional Redemption Payment Date or Early Redemption Payment Date (any such date, a “**Fees Determination Date**”):

- (a) the fees payable to the Margin Account Provider pursuant to the Margin Account Agreement determined as shall be the standard rates, fees and charges of the Margin Account Provider (based on the amount of leverage provided by the Margin Account Provider *multiplied by* the Margin Account Provider's base lending rate (being the U.S Federal Reserve's federal funds rate plus 2.08 %) as set out in the Margin Account Agreement and determined by the Margin Account Provider, payable on the second Business Day of each month; and
- (b) The fees payable to the Arranger, 1.5 % per annum of the Net Asset Value of the Portfolio as at the most recent NAV Report Date (the “**Arranger Fee**”)

The Issuer will incur fees in relation to the issuance of the Notes, which will be deducted from the Portfolio when determining the Redemption Amount. Such fees will include, but shall not be limited to:

- (A) any fees, costs and expenses payable by the Issuer which are directly attributable to the Notes, including:

- (aa) costs incurred in connection with the issuance, listing, clearing of the Notes and / or the performance of obligations in relation thereto;
 - (bb) any commissions, fees, costs and expenses payable by the Issuer pursuant to the Constituting Instrument and the Series Documents as defined therein;
 - (cc) any fees, costs and expenses of the administrator of the Issuer payable by the Issuer or the Arranger in respect of the Notes; and
 - (dd) any legal fees and disbursements payable by the Issuer or the Arranger to Walkers or any other legal advisers to the Issuer or the Arranger in respect of the issuance of the Notes; and
- (B) in relation to any realisation of the Charged Assets, all commissions, fees, charges and expenses (including, without limitation, any stamp duty, documentary or transfer or other taxes or duties payable in respect of the sale or other realisation of any such Charged Assets) incurred or payable by the Sale Agent in respect of such sale or other realisation, as certified by the Sale Agent to the Issuer and the Trustee.

Any amounts payable under the Notes are based on the performance of the Charged Assets net of the fees described above. The fees will be applied in calculating the value of the Portfolio and therefore will result in a reduction in value of the Notes.

Use of proceeds

The entire net proceeds from the issue of the Notes and any Further Notes, will be invested by the Issuer in the Margin Account, subject to and in accordance with the Margin Account Agreement, and which may be used by the Arranger to obtain the Original Charged Assets (in the case of the Notes issued on the Issue Date) and the relevant Further Charged Assets (in the case of any Further Notes) in each case on or as soon as practical following the Issue Date or, as applicable, the relevant date of issue in respect of any Further Notes.

Information relating to the Charged Assets

General

The Issuer will use the proceeds of the Notes to establish a Margin Account and invest in Republic of Venezuela 13 5/8 08/15/18 ISIN: US922646A710.

On the Issue Date, the Original Charged Assets will consist of the interests of the Issuer in the Margin Account, the Margin Account Agreement and any Securities held in the Margin Account by the Margin Account Provider.

Description of the Margin Account

General

The Margin Account is established pursuant to (a) a margin account agreement entered into between the Issuer and Interactive Brokers LLC (the “**Margin Account Provider**”) and (b) a side letter to the margin account agreement entered into between (i) the Issuer, (ii) the Trustee, (iii) the Custodian, and (iv) the Margin Account Provider (the “**Margin Account Agreement**”).

Margin Account

Under the Margin Account Agreement, the Arranger on behalf of the Issuer or the Issuer pursuant to the Margin Account Agreement, may buy Republic of Venezuela 13 5/8 08/15/18 ISIN: US922646A710 from cash held in the Margin Account or to be held in the Margin Account, as applicable.

The Margin Account is to be used to invest in securities or other products on margin which involves the extension of credit to the Issuer from the Margin Account Provider. As a result, the Issuer’s financial exposure could exceed the value of securities or other products in the Margin Account. Any such credit will accrue interest at the agreed rates.

The Margin Account Provider may, in the event of a dispute concerning a trade, upon a Margin Account Default (as defined below), or whenever it deems it necessary or advisable for its protection, sell any or all securities or related contracts in the Margin Account, or buy any securities or related contracts relating thereto, in order to close out in whole or in part any obligations of the Issuer pursuant to the Margin Account Agreement. The Margin Account Provider has the right to purchase for its own account any or all of the aforesaid property at such sale, discharged of any right of redemption.

A “**Margin Account Default**” refers to the Issuer being in default under the Margin Account Agreement, and would include the Issuer being in breach of its obligations pursuant to the Margin Account Agreement, the Issuer becoming insolvent or if analogous proceedings are instituted against the Issuer.

Any credit balances, securities, assets or related contracts, and all other property in which the Issuer may have an interest and held by the Margin Account Provider or carried for the Margin Account shall be subject to a general lien for the discharge of the Issuer’s obligations to the Margin Account Provider (including unmatured and contingent obligations) and the Margin Account Provider may sell, transfer, or assign such assets or property to satisfy a margin deficiency or other obligation whether or not the Margin Account Provider has made advances with respect to such property. Without notice to the Issuer, such property may be sold by the Margin Account Provider, and may be pledged, repledged, hypothecated, separately or in common with other securities or any other property for the sum due to the Margin Account Provider or for a greater sum, and without retaining such property in the Margin Account Provider’s possession and control, for delivery of a like amount of similar securities or other property.

In return for the Margin Account Provider agreeing to the extension or maintenance of credit in connection with the Margin Account, the Issuer has agreed that the securities in the Margin Account, together with all attendant rights of ownership, may be the subject of securities lending transactions, whether to the Margin Account Provider or by the Margin Account Provider to third parties. In connection with such loans, the Margin Account Provider may receive and retain certain benefits to which the Issuer will not be entitled. Further, there is a risk that substitute payments that the Issuer

may be entitled to as a result of such securities loans may not be afforded the same tax treatment as actual interest, dividends and / or other distributions, that the Issuer may have been entitled to but for such securities loans, and the Issuer may incur additional tax liability for substitute payments that it receives. The Issuer would not be entitled to any compensation in connection with securities lent from the Margin Account or for additional taxes they may be required to pay as a result of any tax treatment differential between substitute payments and actual interest, dividends, and / or other distributions.

The Issuer is required to reimburse the Margin Account Provider for all costs and expenses incurred in the collection of any debit balance or unpaid deficiency in the Margin Account, including, but not limited to, attorneys' fees, as well as all actions, omissions, costs, fees (including but not limited to attorney's fees), or liabilities associated with any Margin Account Default, or any transactions undertaken by the Margin Account Provider upon such Margin Account Default.

Pursuant to the Margin Account Agreement, the Issuer is required to grant to the Margin Account Provider a security interest in and pledge to the Margin Account Provider any and all assets of the Issuer of any kind held by or on behalf of the Margin Account Provider for the Margin Account. The security interests described in this paragraph is granted by the Issuer to secure the performance of obligations and liabilities to the Margin Account Provider under the Margin Account Agreement or any other agreement.

The Issuer's obligations shall include any and all indebtedness, liabilities or other obligations (including unmatured and contingent obligations) now or hereafter owed by the Issuer to the Margin Account Provider.

The Margin Account Provider cannot be held liable for any losses caused directly or indirectly by government restrictions, exchange or market rulings, suspension of trading, war, strikes or other conditions beyond their control, including, but not limited to, extreme market volatility or trading volumes.

Investment in the Margin Account

By investing in the Margin Account, the Issuer will purchase certain Securities and also have the ability to invest on margin. This means that the Margin Account Provider may, in its sole discretion, allow the Issuer to obtain an exposure to Securities with an aggregate value that exceeds the amount that the Issuer has invested, by allowing the Issuer to only maintain sufficient margin in the Margin Account to fund margin calls on the relevant position in the Securities (and not the face value of the Securities themselves). In this way, the Margin Account Provider provides the Issuer with leverage in respect of the Portfolio.

However, if the Net Asset Value of the Portfolio (and therefore the value of the underlying Securities) were to fall below a certain level, as determined by the Margin Account Provider in its sole discretion, the Issuer will receive a margin call from the Margin Account Provider. At this time:

- (c) the Issuer may issue Further Notes pursuant to Special Condition (VI) and to use the proceeds of such Further Notes to fund the relevant margin call;
- (d) the Margin Account Provider may elect to liquidate positions by selling Securities or by terminating margin investments and retain the proceeds thereof to meet such margin calls.

A liquidation of positions as set out in (b) above would not lead to an early redemption of the Notes, unless such a liquidation is a Collateral Default or a Charged Assets Default (as defined in Condition 2(b)(ii)).

While the leverage described above presents opportunities for increasing total return, it has the effect of potentially increasing losses as well subject to limited recourse and non-petition provisions contained in a side letter to the Margin Account Agreement from the Margin Account Provider to the Issuer, Trustee and Custodian for the benefit of the Issuer. That is, where the income and appreciation on the Portfolio are less than the cost of the leverage (margin), the value of the Portfolio and the Margin Account (and therefore the redemption value of the Notes) will decrease. Accordingly, any event which adversely affects the value of the Portfolio would be magnified to the extent leverage is employed.

Therefore, an investor in the Notes should note the following:

- (i) The cumulative effect of the use of leverage in a market that moves adversely to a leveraged investment could result in a substantial loss which would be greater than if leverage was not used.
- (ii) Leveraged transactions involve the posting of margin. Increases in the amount of margin or similar payments could result in the need for trading activity at times and at prices which could be disadvantageous to the Portfolio..
- (iii) As a consequence of leverage, interest expense may be material as a percentage of the Portfolio. The use of leverage means that even comparatively small losses, or insufficient profits to offset expenses, could rapidly reduce the Net Asset Value of the Portfolio.

Fees

The fees payable to the Margin Account Provider are described in Special Condition (XI) of the Notes.

Description of the security arrangements in respect of the Notes

Introduction

The Notes will be secured, limited recourse obligations of the Issuer. The purpose of this section is to provide further information in respect of these important features of the Notes, which are included in the Conditions. However, the following description is a summary only of certain aspects of the security arrangements and is subject in all respects to the terms of the Trust Deed and the Conditions of the Notes, of which Noteholders are deemed to have notice and by which they are bound.

The Issuer will, pursuant to the provisions of the Trust Deed, grant the Security described below to the Trustee as continuing security for the payment of all sums due under the Trust Deed and the Notes. The Trustee shall hold such Security on behalf of itself, the Agents and the Noteholders.

Margin Account Agreement

The Security is subject to (i) a lien retained by the Margin Account Provider; and (ii) the security interests created pursuant to the Margin Account Agreement over the assets held in the Margin Account, that supersede any security interests created by either the Trust Deed or the Charging Instrument.

Security arrangements

The Notes will be secured by a charge over the Margin Account and any Securities held in respect of the Margin Account from time-to-time and the Related Rights obtained with the entire net proceeds of the issue of the Notes and all rights of the Issuer derived from or connected to the shares and all rights and sums derived therefrom in favour of the Trustee for itself and as trustee for the Secured Parties (which includes the Noteholders).

Under the Trust Deed, as amended by the terms of the Constituting Instrument, the Issuer, in favour of the Trustee for itself and as trustee for the Secured Parties, and as continuing Security, will:

- (A) assign by way of security all of the Issuer's rights, title, benefit and interest in, to and under the Custody Agreement including, without limitation, with respect to (a) the Charged Assets and (b) all proceeds (howsoever described) received under the Custody Agreement in respect of the Charged Assets;
- (B) charge all of the Issuer's rights, title, benefit and interest in and to all proceeds (howsoever described) standing to the credit of the account of the Custodian in respect of the Charged Assets and the debts represented thereby;
- (C) charge all of the Issuer's rights, title, benefit and interest in and to all funds standing to the credit of the account of the Principal Paying Agent in respect of the Notes and the debts represented by such moneys; and
- (D) assign by way of security all of the Issuer's rights, title, benefit and interest in, to and under the Agency Agreement and the Placing Agreement and all sums derived therefrom

Charging Instrument

Pursuant to the Charging Instrument the Issuer will grant a New York law governed security interest over the Margin Account and any Securities held in respect of the Margin Account from time-to-time

and the Related Rights obtained with the entire net proceeds of the issue of the Notes and all rights of the Issuer derived from or connected to the Charged Assets as security in favour of the Trustee for itself and as trustee for the Secured Parties.

Enforcement of the Mortgaged Property

The Mortgaged Property may become enforceable if the Notes or any of them have become due and repayable (for example, due to acceleration following the occurrence of a Tax Event, Mandatory Redemption Event, Additional Mandatory Redemption Event or an Event of Default) and have not been repaid.

In such circumstances the Trustee may at its discretion and shall if so requested or directed by the relevant parties (as more fully described in Condition 7), realise the Charged Assets. In realising the Charged Assets the Trustee may, but shall not be obliged to, procure the sale of the Charged Assets or may request the redemption of the Charged Assets.

Priority of claims and potential for insufficient security on sale of Charged Assets and / or on enforcement

In the event that any Charged Assets are required to be sold pursuant to the Conditions or the Security constituted by the Trust Deed and the Charging Instrument becomes enforceable in accordance with the Conditions, the net sums realised could be insufficient to pay all the amounts due to the Noteholders under the Notes. The sums realised from any such sale of the Charged Assets will be subject to deduction of the costs and expenses associated with such sale. In addition, all costs and expenses incurred by the Trustee in enforcing the Security and amounts due to the Agents will be deducted from the proceeds of such enforcement before such proceeds are paid to the Noteholders. After taking action to enforce the Security as provided in the Conditions, the Trustee shall not be entitled to take any further steps against the Issuer to recover any sum still unpaid and no debt shall be owed by the Issuer in respect of such sum. In particular, no Agent or Noteholder may petition or take any other step for the winding-up of the Issuer nor shall any of them have any claim in respect of any sum over or in respect of any assets of the Issuer which are security for any other liability of the Issuer.

Limited recourse provisions

The Trustee, the Agents and the Noteholders (in each case to the extent that their claims are secured) shall have recourse only to the Mortgaged Property. If, the Trustee having realised the Mortgaged Property, the proceeds thereof are insufficient for the Issuer to make all payments then due to all such parties, the obligations of the Issuer will be limited to such proceeds of realisation of the Mortgaged Property and no other assets of the Issuer will be available to meet such shortfall; the Trustee, the Agents, the Noteholders or anyone acting on behalf of any of them shall not be entitled to take any further steps against the Issuer to recover any further sum and no debt shall be owed to any such persons by the Issuer. The Trustee and the Agents shall rank prior to the Noteholders in the application of all moneys received in connection with the realisation or enforcement of the Security. In particular, none of the Trustee and the Agents or any holder of the Notes may petition or take any other step for the winding-up of the Issuer, and none of them shall have any claim in respect of any sum arising in respect of the Mortgaged Property for any other Series.
