Notes/Legal Notes

Notes

- 1. Most stock exchange transactions settle on the trade date plus three business days. Options, futures, and US open-end mutual fund transactions settle on trade date plus one business day. (Some exchanges and other transaction types may have longer or shorter settlement periods. For instance, stock transactions on XETRA settle on trade date plus two business days.) Ending settled cash reflects the cash that has actually settled.
- 2. Initial and maintenance margin requirements are available within the Account Window of the Trader Workstation.
- 3. Interactive Brokers LLC receives compensation from fund companies in connection with the purchase and holding of fund shares by customers of Interactive Brokers LLC. Such compensation includes, but is not limited to, Rule 12b-1 fees that are paid out of the funds assets. The source and amount of any remuneration received by Interactive Brokers LLC in connection with a transaction will be furnished upon written request of the customer. IB may share a portion of the compensation received from fund companies with your financial advisor or introducing broker.
- 4. Quantities preceded by a "-" sign indicate sell transactions. Other transactions are purchases.
- 5. In case of partial executions, commissions are charged on the total quantity executed on the original order. The commission is displayed on the first partial execution only.
- 6. Each closed lot indicated above with a reference to note (6) was chosen by the end of the trading day to be sold versus the specific opening purchase identified in that row.
- Trade execution times are displayed in Eastern Time.
- 8. Applicable commodity Regulatory Fees for your transactions are available on the IB website at www.interactivebrokers.com/en/accounts/fees/exchangeAndRegulatoryFees.php.
- 9. Borrow Fee Rate represents the cost to borrow stock expressed in percent per annum. It is applied to the cash collateral amount on the stock borrow contract and is separate from any interest earned on credit cash balances. Similarly, Loan Fee Rate represents the benefit to lend stock. A positive rate indicates a cost to the borrower/benefit to the lender and a negative rate indicates a benefit to the borrower/cost to the lender. In general, the fee rates for hard-to-borrow stocks are higher than for normal availability stocks.
- 10. The closing prices on this Activity Statement are indicative and may come from third-party sources. Interactive Brokers does not warrant the accuracy of the prices provided by third-party sources.

Fixed Income Notes

1. Call features for bonds or preferred stocks may affect the yield. For zero coupon, compound interest and multiplier securities, there are no periodic payments and securities may be callable below maturity value without notice to holder unless registered. For asset-backed securities, the actual yield may vary depending on the speed at which the underlying note is pre-paid. For additional information regarding bond yield, please contact the IB Help Desk at: help@interactivebrokers.com. If this debt security is unrated by a nationally recognized statistical rating organization, it may pose a high risk of default. You should consult a financial advisor to determine whether unrated bonds are appropriate for your portfolio in light of your goals and your financial circumstances.
